

Thank you for visiting Cabell Huntington Hospital. We are proud of our facility and our team. Below is some information we would like to share for your reference.

Perioperative Services consists of 19 surgical suites in the main operating room. Within the 19 suites of the main OR, there is a cystoscopy suite, dental suite, hybrid room, and three robotic suites. There are four endoscopy suites across the hall from the main operating room. There are two operating theaters located on the 3rd Floor Woman's Unit in the hospital that are dedicated solely for the care of female patients. The Outpatient Surgery Center, located across the street, has four surgical suites and one endoscopy suite.

Services that operate at CHH include General, Bariatrics, ENT, Plastics, Vascular, OB/GYN, Ortho, Sports Med, Back and Spine, Neurology, Ophthalmology, Pulmonology, and Urology.

The operating rooms are equipped primarily with Stryker Endo towers and one Arthrex tower for Sports Medicine. Endoscopy is equipped with Olympus towers. We house multiple c-arms and specialty equipment, such as:
